**Permit Number: WRP040402 v1.0**  
**Site Name: 06-Forest Lake Dam**

**Date Issued: March 1, 2024**  
**Expiration Date: March 1, 2029**

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Water Resources Division, P.O. Box 30458, Lansing, Michigan 48909-7958, under provisions of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended: specifically:

- Part 31, Floodplain Regulatory Authority of the Water Resources Protection.
- Part 301, Inland Lakes and Streams.

**Authorized activity:**

Make improvements to the existing access road and construction staging area, remove debris from the failed spillway structure, dredge and regrade the spillway area, reconstruct the downstream channel to Wells Creek, install an aggregate base for the channel, and install tree revetments. This work will involve the re-shaping and re-grading of the downstream channel approximately 390 feet downstream of the new concrete spillway. Install a temporary berm during the construction of the downstream channel to prevent backflows from Wells Creek. The restored creek channel will match the existing channel at the downstream end of the work and will be fully restored and stabilized with native vegetation.

To be conducted at property located in: Arenac County, Waterbody: Wells Creek  
Section 24, Town 20N, Range 03E, Moffatt Township
